

PC Based Video Chat Program (Live On)

- The program only requires access to a PC equipped with a web camera, headset and internet connection (a dedicated PC is not necessary).
- The client software can be automatically installed from the server, free of charge (Internet Explorer 6 or above is necessary)
- Up to 20 participants can use the chat program at the same time
- The program can also be accessed via a proxy server network

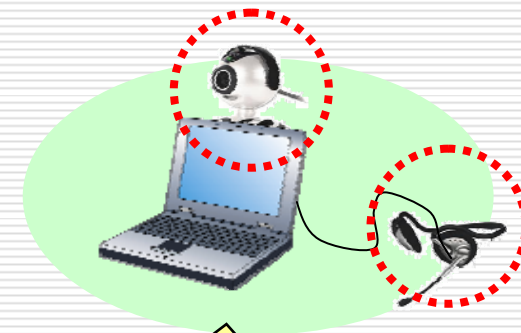

Live On Video-Chat System
