

Work Experience in Barclays Operations

Japan Service Centre in Singapore

About us

We have a 300-year-strong foundation on which to build. Our status as one of the world's major financial services providers gives us weight and momentum. Our expertise across personal banking, credit cards, corporate and investment banking, and wealth and investment management offers true variety. And in over 50 countries around the world, our 140,000 people are coming together to set examples of accountability, collaboration, good citizenship and, above all, pride in the work we do. All guided by a strong set of values: respect, integrity, service, excellence and stewardship.

About Operations

The scope of our work here is huge: we build relationships with virtually every part of the business, and support them with everything from securing new business to executing multi-million pound strategic projects that enhance the experience their clients have.

Within Operations, there is a diverse group of specialist teams, who manage the processes and systems that keep our business at the cutting edge. That will give you an immense variety of experiences to explore, across a range of teams, including Client Service, Central Operations, Middle Office, Change and Re-engineering, Global Payments, Business Assurance, Trade and Sales Finance and International Operations. You'll challenge the status quo, improve the performance of people and technology, learn about the full spectrum of products we offer, learn about virtually every group in the firm and develop an understanding of established and emerging markets.

About the Japan Service Centre

The Japan Service Centre (JSC) was established in Singapore in May 2012 taking over a subset of Operations processes from Japan. The JSC currently consists of ten functional teams supporting the Japan market and Japanese clients.

The aim of the JSC is to provide seamless services to clients even in the event of natural disasters. As Singapore is the Asia hub for Barclays, employees in the JSC have the opportunity to work closely with other Operations teams in Singapore.

Work Experience Opportunity

This is a new programme Barclays is offering in partnership with Waseda University, and offers a unique three week experience in Singapore in August. During the three week programme students will set objectives with their line manager, work on an assigned project, participate in knowledge sharing sessions, work shadowing and networking to gain a deeper understanding of Operations in an Investment Bank.
