Students' Voices

The highlight of my experience was definitely the people involved. Fellow short-term program participants from around the globe, long-term exchange students from incredibly diverse backgrounds, friendly and energetic instructors, and kind volunteer Waseda students who came in for no other reason than to help out and make new friends all came together to make each day's three-hour class glide by. By participating in the spring short-term language program at Waseda, I made great progress with my Japanese, got to experience one of the most dynamic and interesting cities on the planet, made great new friends, and had a blast all the while!

Even this short-term language program is not very long, it made me a great effort for my Japanese skills! The teachers (sensei) are very friendly and nice. They helped me a lot to make a progress in learning the language. Japanese volunteer students, who participated the class, also helped us by discussing with us some aspects and points of view. The classmates were same students as you, who came all around the world, so it was a good opportunity to meet new people and make some new friends! I think, this Short-term Japanese Program was one of the challenging and also the best experience I have ever had!
