

How to Use Wireless LAN (iPad)

Notice

- Alumni (graduates) will not be able to connect to the intra-university networks.
- Network connections are restricted to some ports for security reasons. So you may not use some apps including Mail.
- iPhone and iPod touch are not supported by us. You can use this manual, but we don't guarantee the devices.
- Your ID and password are saved in iPad. You have to delete the network settings after you use if you share iPad with others.

I . Network Settings

1

Open Settings on Desktop.

2

- (1) Select Wi-Fi.
- (2) Turn Wi-Fi on.
- (3) Click blue arrow button of waseda-wpa2.

3

- (1) Select DHCP.
- (2) Select Off on HTTP Proxy.

I . Network Settings

4

Return to Wi-Fi Networks and click waseda-wpa2.

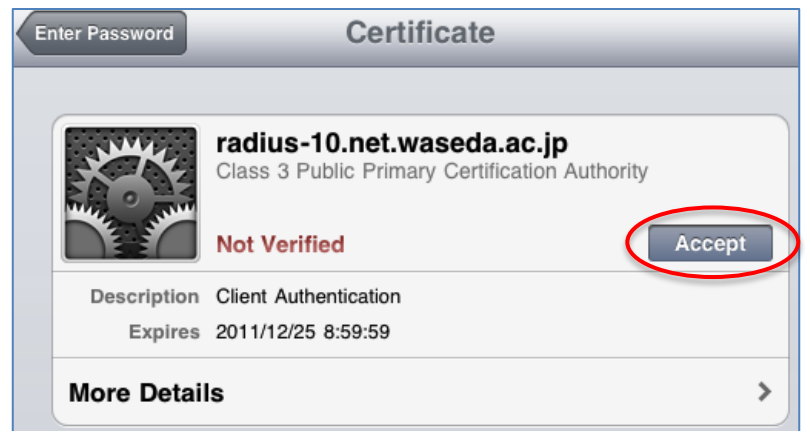

5

Enter your Waseda ID or Waseda mail address and password, then click Join.

6

First time Certificate window opens and click Accept.

You can check the Wi-Fi location on IT service NAVI site.
http://www.waseda.jp/navi/e/network/wireless_new.html

I . Network Settings

7

- (1) Confirm waseda-wpa2 is checked.
- (2) Click blue arrow button if you check your IP.

II. Delete Network Setting

8

If you want to delete network setting for waseda-wpa2, click Forget this Network.
