

Award announcement

Name : Yoshiteru Aoi

Specialized field : Microbial Ecology, Applied Microbiology, Environmental Biotechnology

Research : Designing of new isolation and cultivation strategies for environmental microorganisms and analysis and control of ecological function in microbial communities

International Symposium on Microbial Ecology Asia 2007 ,

At the International Society for Microbial Ecology Asia Symposium (ISME Asia 2007)

【 Received the Best Poster Award 】

Symposium dates: September 15–17, 2007

Benefit: ISME one year free membership

Development of new methodologies for cultivating environmental microorganisms: Hollow Fiber Membrane Chamber

Yoshiteru Aoi, Yuji Kaneko, Hiroaki Ohta, Atsushi Nagao, Satoshi Tsuneda

Selected by the Japanese Society of Microbial Ecology (JSME) to receive its Best Poster Award for the JSME 23rd annual meeting, held concurrently with the above ISME symposium

System microbiology approach to understand microbial community of biofilm

Shinya Matsumoto, Mayu Katoku, Yoshiteru Aoi, Satoshi Tsuneda, Cristian Picioreanu, Mark C.M. van Loosdrecht
