

International Trade and Multinational Corporations

YOKOTA, Kazuhiko

1. Area of expertise, research area, or current themes in his/her research

Theoretical and empirical study of international trade and multinational corporations. Current research topics are: effects of trade liberalization, global value chain, economic interpretation of international businesses, etc.

2. Supervision Policy

First year: focus is on discussing important articles on international trade and multinational corporations that Ph.D. students must read. From the second year onwards: read and discuss specific researches related to the theme of the thesis for each Ph.D. candidate, and complete the doctoral dissertation.

3. Advice to prospective students

Knowledge of both mathematics for economics and econometrics is necessary for taking this course.
