■ The Course Registration of other Graduate Schools

Please check the submission period and methods carefully when registering for courses.

Also, please make sure to check which Days and Periods each course will meet when you plan to register for courses offered by other schools or centers. **You cannot register for courses overlapping in the same day and same period.** If the courses you've submitted for registration were scheduled in the same day and same period, only one course can be registered, which means, if it's the duplication of GSC course and the other school's course, the other school's course will be picked up and registered automatically without being asked by the system. The GSC course will be dropped in this case.
