AY2021 Scholarship Registration for International Students

To become a candidate of scholarships in AY 2021, international students of WBS are required to **complete the Scholarship Registration Form by September 26th (Sun), 2021.**

Selection of Nominees for Scholarship

Once you completed the Scholarship Registration Form, your name will be on the candidate list for a single Academic Year (starting from April to March of the next year). You must complete the Scholarship Registration Form **every Academic Year** in order to stay on the list.

Whenever the WBS office receives an opportunity to nominate student(s) for a scholarship, nominee(s) will be selected from the candidate list. The criteria upon selection of nominee(s) could be very different depends on the scholarship provider. Possible criteria including affiliated program, age, nationality, gender and so on; however, if the scholarship provider did not specify any criteria for selection, your academic records (upon admission, during your study at WBS, etc.) will be the main yardsticks.

If you are selected as a nominee, the WBS office will inform you through your Waseda email with further information. You will then have to complete/prepare necessary documents (application forms, transcripts, recommendation letter, health check report, resident status form, photos, etc.) which are requested by the scholarship provider.

Additional Information regarding Scholarship

The procedures above are for scholarships that require nomination from the university/WBS. Apart from those, there are also publicly-offered scholarships that do not require nomination and students can apply directly to the providers. Information of these scholarships will be available on the university's scholarship division website (<http://www.waseda.jp/inst/scholarship/en/>), as well as the bulletin board outside of our office on 3rd floor, Bldg. No. 11. **Please check periodically if you are interested to apply.**

Registration period :
