

※Applicable to students who enrolled in AY 2017 and after

Tuition and Fees for Extended Students

Tuition and fees for extended students*¹ are based on whether the student has taken the required number of credits necessary for completion by the end of the previous semester. At GSAPS, earning 30 credits including Project Research is necessary to meet the completion requirement. Here, if the student has taken 30 credits by the end of the previous semester **by complementing the 8 credits with other classes**, it can fall under the category of 「30 ≤」 in the table below, even though the 8 credits for Project Research remain untaken.

For doctoral students, there is no completion requirement regarding the number of credit. Therefore, it is basically 「50 % of the standard tuition and fees」 in the table below.

Number of credits already taken	Tuition and Fees
30 ≤	50 % of the standard tuition and fees * ²
29 ≥	Same amount as the standard tuition fees

*¹ Extended students are those who have been enrolled for more than the designated enrollment period (MA 2 years, PhD 3 years), excluding the period of leave of absence.

*² The standard tuition fees referred to for the calculation are of the students in the highest grade (2nd year for MA, 3rd year for PhD) at GSAPS.

(Ex.) The tuition and fees for extended students in the spring semester 2019 is calculated based on the tuition and fees that **the AY 2018 enrollees pay**. Please see the website to confirm the tuition and fees of each academic year's enrollees. <http://web.waseda.jp/gsaps/en/academics/tuition/ma/>

●Special Rules Applied to Students Studying Abroad●

As a rule, the enrollment status for students participating in the CIE/GSAPS study abroad program is recognized as "Studying Abroad (Registered)" and the period of study abroad is counted towards the period of enrollment required for completion. As a result, it is possible that you will be an extended student when you return to school. However, if the student become an extended student after study abroad of one semester or more, under an approval of the committee meeting and by meeting the requirements below, even if some credits remain untaken, the tuition and fees is **50 % of** the standard one. Please note that the maximum periods this rule is applied to are up to two semesters. Also note that while on study abroad, the tuition and fees is as a rule the designated full amount. There is an exception for PhD students, so please ask the Office for more details.

Number of credits already taken	Tuition and Fees
16 ≤	50 % of the standard tuition and fees
