I. Overview of Admissions

1. Outline of This Program

The International Relations Program of the Graduate School of Asia-Pacific Studies (GSAPS) at Waseda University has been selected for 2020 International Priority Graduate Program (PGP) of the Ministry of Education, Culture, Sports, Science and Technology (MEXT). The PGP program, which was created by MEXT to support programs which have international appeal to foreign students, provides priority allocation for government financed foreign students. The period of the scheme is from 2021 to 2023. Please find a detailed outline of the program offered by the GSAPS below.

(1) Purpose of the Program

The broader goal of the program is promoting cooperation between Asia and Europe and thereby realizing greater cooperation in the international community as a whole. More specifically, the program aims to train global leaders capable of addressing global issues such as those outlined in the Sustainable Development Goals (SDGs).

The recent years have seen troubling trends in international relations such as the confrontation between two great powers, China and the United States, and the rise of unilateralist and non-cooperative tendencies among many nations. The global pandemic caused by the COVID-19 has demonstrated that there is an urgent need for international cooperation and collaboration in addressing global challenges that extends beyond the framework of individual nation-states. It is expected that key global governing bodies, United Nations agencies and international organizations such as the World Health Organization (WHO), will take the leadership when such challenges emerge. However, the story of the global pandemic seems to show that the present global governance mechanisms are not functioning effectively. The current situation seems to underscore the importance of building cooperative mechanisms based on mutual trust among nations with cooperative orientations.

Japan has a significant track record of leadership and cooperation in the development of multilateral governance frameworks such as the EU-Japan Economic Partnership Agreement (EPA), Trans Pacific Partnership Agreement (TPP 11), G7 and ASEAN+3 and regional governance frameworks such the EU and ASEAN. In this sense, one can argue that Japan is geopolitically and historically destined to play a key role in the development of global and regional cooperation frameworks for maintaining peaceful global order and addressing global issues. Japan's leadership will certainly contribute to the resolution of global challenges, but it will also help stimulate the development of international frameworks for promoting trade of goods and services, direct and indirect investment and labor and technological transfer and strengthen the links between the Japanese economy and the world economy. Fostering these developments can constitute a strategy for growth for Japan, which has been suffering from long-term economic stagnation, allowing it to integrate effects of growth outside, Asia in particular, to stimulate its growth.

Based on the perspectives discussed above, the program seeks to train global leaders motivated to provide solutions to global problems such as those addressed in the SDGs.

(2) Contents of the Program

The students will be enrolled in the “Project Research (thesis research guidance)” seminar selected at the time of admission based on their research interests. They will prepare and write their thesis while cultivating knowledge, analytic skills and methodological expertise necessary for completing their dissertation.

Besides the project research seminar, the Ph.D. students take the compulsory courses of this program such as “Europe and Asia”, “Human Development and the Sustainable Development Goals (SDGs)”, “Sustainable Development and International Development Cooperation” and “Digital Sustainability”, according to their interest and needs.

As part of the JICA Development Studies Program, the GSAPS has been offering lecture courses on Japan’s experience in economic growth and development and international cooperation in particular connection with the SDGs. It also has been jointly operating the East Asian University Institute (EAUI) program with four partner universities, Korea University, Nanyang Technological University, Peking University and Thammasat University, to promote regional integration and cooperation in Asia and, as part of this program, co-organizing a summer school every year. Moreover, it has been working with the Institute of European Studies at Universite Libre de Bruxelles since AY2020 to develop courses on inter-regionalism. These courses may be incorporated into the program as well.

(3) Project Research

Doctoral degree candidates are required to complete compulsory courses and submit their dissertation to earn the Ph.D. degree. Candidates may also choose to take additional master’s level courses for further credit, if they wish. Most students who do not elect to take additional courses focus exclusively on their dissertations.

Therefore, all the Ph.D. applicants are required to choose only ONE project research appropriate to their own research field from the list below available this academic year, and input it in the “Online Application Form” (Refer P.14), by checking the URLs listed below.

The final selection of the project research takes into comprehensive consideration the student’s research plan/desire and other documents presented during the admissions process as well as an interview result in the 2nd screening.

We accept the certificates sent by CHESICC/CDGDC to reach us even before the application period.

STEP 1 Verification of Certificate of Graduation/Completion (Diploma)

- Visit CHESICC website (<https://www.chsi.com.cn/en/pvr/>) for more information.

- Only report sent directly from CHESICC will be considered valid.

Note: In case you are expected to graduate/complete at the time of application, “Online Verification Report of Student Record” including “Anticipated graduation (completion) date” by CHESICC is also acceptable, instead of the certificate/letter of expected graduation/completion issued by your home university.

- If academic transcript indicating GPA is available, submit it. Besides, in case you submit the transcript with GPA, upload the document of grading scale/system **showing the maximum point of GPA**.
- All courses taken at the undergraduate and/or graduate levels must be included in the academic transcript. If you are applicable to any of the conditions stated below, follow the instructions.
