

# WHAT IS AT STAKE WHEN A COUNTRY IS IN DEBT?

December 1, 2022

Thursday | 16:30-18:00

Building 19, Room 713, Waseda University

The amount of financial debt a country owes is naturally of central interest for sovereign credit ratings. And it is true that the word 'debt' gives an unavoidably negative impression. What is really at stake when we assess the indebtedness of a country? In this talk, the speaker, a 'debt watcher', will discuss the state of fiscal deficits and debt in the world today.

**Mr. Kenji Sekiguchi**

Chief Sovereign Analyst, Rating & Investment Information, Inc. (R&I)

**Waseda Institute of Asia-Pacific Studies Colloquium Series**
