

CENTER FOR DIGITAL TECHNOLOGY AND MANAGEMENT

EMPOWERING INNOVATORS OF TOMORROW THROUGH THE LEADING
INTERDISCIPLINARY STUDY PROGRAM AND GLOBAL NETWORK

INTRODUCING THE CENTER FOR DIGITAL TECHNOLOGY AND MANAGEMENT, A JOINT INSTITUTION BETWEEN TUM AND LMU.

The **Center for Digital Technology and Management** (CDTM) is a joint research and educational institution of the Ludwig-Maximilians-Universität München (LMU) and Technische Universität München (TUM), and member of the Elite Network of Bavaria (ENB).

Since 1998, CDTM offers the add-on master-level program **"Technology Management"** to highly talented students (~25 per semester) from different disciplines who are passionate about digital technologies. During **project-based courses** they tackle real-world problems with digital tools and learn the necessary methods and skills to become innovators of tomorrow and responsible leaders.

The management of the Center is done entirely by a team of doctoral candidates that also **conducts applied and interdisciplinary research** projects in the field of digital technology.

Please reach out to the management team (abroad@cdtm.de) for more information.
