Instructions for Authors Writing Articles in English

Revised: July 29th, 2016

Authors are requested to follow the instructions below when writing articles for this journal.

a) Manuscripts in English should be prepared as an electronic file (PDF) and written horizontally in A4 format. Contributors must also create a separate document file for the cover page. This file must contain the paper title, the name(s) and institutional affiliation(s) of the author(s), the qualification for submission, an **abstract** (approximately 200 words), contact email address(es) and acknowledgments. The form of this page can be freely customized by each writer.

*The abstract must be reviewed by a native English speaker before submission.

b) The main body, appendices, notes, and bibliography of the manuscript must be presented in this order. Authors are required to use a font size of 12 points or larger and double-spacing. In principle, the length of an article (including charts, formulas, notes, bibliography, etc.) should not be more than 30 pages.

c) Manuscripts must not include any author-identifiable information, such as names, institutional affiliations, etc.

d) If there are several appendices in a paper, writers should assign each an individual letter and number (such as A1, A2 ...) in the main text, and present all appendices between the main text and the notes.

e) All notes should be numbered by consecutive superscript numerals in the main body of the manuscript, and should be placed between the appendices and the bibliography. With regard to presentation of notes, authors can choose between A or B below.

A :

[Text]

——In general arguments, direct investment is considered to be based on two concepts⁽²⁾, namely, ——.

[Note]

(1) ——.

(2) The author is aware that there are some counter-arguments to this, however, ——.

(3) ——.

B :

[Text]

According to Dahl, this regime has two dimensions of participation and contestation.(1)

[Note]

(1) Robert A. Dahl, *Polyarchy: Participation and Opposition*, Yale University Press, 1971, pp.1-9.

(2) *Ibid.*, p.12.

f) All references should be listed at the end of the article. Authors must provide numbers of Japanese documents, arranged in the order of the Japanese syllabary, and of foreign documents in alphabetical order. If a work is cited in the main text, name(s) of the author(s) and the number of the document should be included in the list of references.
