2018 Summer Internship Program for International Students

Introduction

This summer internship program is intended for engineering students at the sister institutes of National Chung-Hsing University to delve into the engineering technologies and the cultural beauty of Taiwan.

Geographically located between Japan and Philippines along the west rim of the Pacific Ocean, Taiwan is celebrated for its stunning vibrancy in industrial innovation. It is also one of the leading e-societies in the Asia-Pacific region. These economic achievements have been highly associated with a distinctive culture comprising of a wide array of Chinese and indigenous elements. The technology novelty and the cultural beauty of Taiwan deserve more recognition from the world. To that end, the summer internship program to be held at NCHU offers a series of technical seminars and field trips. We earnestly invite you to join this discovery trip.

About College of Engineering at NCHU

The College of Engineering at NCHU is composed of six departments and four graduate institutes. The six departments are Department of Civil Engineering, Department of Mechanical Engineering, Department of Environmental Engineering, Department of Electrical Engineering, Department of Chemical Engineering, and Department of Materials Engineering. The four graduate institutes include Graduate Institute of Precision Engineering, Graduate Institute of Communication Engineering, Graduate Institute of Optoelectronic Engineering, and Institute of Biomedical Engineering.
