Admission Policy

Under the Waseda University’s motto of “independence of learning”, the School of Science and Engineering welcomes many students from both within and outside of Japan who have a certain level of high fundamental academic skills, strong intellectual curiosity, “enterprising spirit” which is the philosophy of the university, and a high motivation to learn.

School of Fundamental Science and Engineering
In line with Waseda University’s founding principle, “the preservation of the independence of scholarship,” the school invites applications from a wide range of researchers and engineers from Japan and overseas who have the desire to acquire advanced knowledge, and who are capable of leading society and looking to impact the future of science and technology. Applicants will be selected based on their ability to study a science and technology curriculum in English, in order to obtain an English degree, and also based on their motivation to master the theoretical and practical abilities necessary in order to tackle both general and specialized courses. To this end, the school considers it a prerequisite that applicants not only have a reasonable command of English but also have basic academic skills at a high school level or equivalent. The school will also take into consideration the applicant’s personal character, such as whether or not they have the communication skills required to play an active role on the world stage.

School of Creative Science and Engineering
In line with Waseda University’s founding principle, “the preservation of the independence of scholarship,” the School of Creative Science and Engineering welcomes applications from individuals from Japan and overseas who possess a solid grounding in basic scholarship, a powerful intellectual curiosity, an enterprising spirit in line with the university’s principles, and a strong motivation to pursue further study. When selecting applicants, the school places particular importance (among other things) on whether or not the applicant possesses the following: outstanding abilities in the natural sciences, sufficient command of English to study the various fields covered in that language, sufficient logical thinking ability, and the ability to play a leading role in future society, drawing on global insights, and a comprehensive grounding in the liberal arts.

School of Advanced Science and Engineering
In line with Waseda University’s founding principles “the preservation of the independence of scholarship,” “the promotion of the practical application of scholarship,” and the “fostering of good citizens,” the School of Advanced Science and Engineering invites a broad range of individuals from Japan and overseas who have a solid grounding in basic scholarship, a powerful intellectual curiosity, an enterprising spirit, and a strong motivation to study. The school strives to select applicants who:

1. Are motivated to study natural science and related fields in English
2. Have sufficient command of English to study in that language or the potential to do so
3. Have sufficient logical thinking skills and can engage in the study of applying basic scholarship
4. Have the motivation to apply a general grounding in natural sciences and contribute to the international community
5. Have international perspectives or the flexibility to acquire international perspectives
6. Have sufficient grounding in basic scholarship at a high school (or equivalent thereof).

(10) Documents related to application for Certificate of Eligibility (“1” through “4”)

International students without resident status in Japan are basically required to apply for a Certificate of Eligibility (COE) in order to apply for a Student visa to enter and reside in Japan.

Application for a COE must be filled by one of the following persons:
1. The student himself/herself (You)
2. Administrative staff of the accepting institution (Waseda University) 【As a proxy】

Waseda University will act as a proxy (on behalf of you) and apply for your COE if all the following requirements are met:

1. You do not have a Japanese residence status and require a COE to obtain a “Student” visa.
2. You submit all the required documents for a COE and complete the necessary enrollment procedure.

The following steps must be taken in order to obtain a COE and student visa.
1. Apply for a COE by submitting the COE application documents at the Tokyo immigration bureau.
2. After the COE is issued, you should take it together with other documents (e.g. Passport) to the local Japanese embassy or consulate and apply for a Student visa.

“Student” Visa Acquisition Process (1 → 2 → 3 → 4 → 5 → 6)

NOTE:
- The entire process takes approximately two months thus please submit the COE documents at the time of admissions.
- If you hold a dual citizenship of Japan and another country, you cannot apply for the COE/student visa.
- Non-Japanese nationals with a Short-term visa are not eligible to enroll in a university.
- If you already have a “Student” visa, apply for the extension of the period of stay as needed. An application for the extension of the period of stay can be made from three months before your visa expires. For further information, contact the Immigration Bureau.
- If you currently have a visa other than "Short-term" visa (such as “Long-term Resident” or “Dependent”), you do not need to undertake any immigration procedure. If you wish to change your visa status to “Student”, you should apply for a change of resident status at your own responsibility.
- “Student” visa holders are eligible to apply for tuition waiver programs and scholarships for international students. A non-Japanese resident who holds a visa other than “Student” allows him/her to enroll in a university but may not be able to apply for the financial support programs for international students.
- Waseda University applies for a COE on behalf of the students only for a “Student” visa. Those who intend to apply for other types of visas are required to file their applications themselves.
- If you do not submit the necessary documents or the submitted documents are incomplete, Waseda University will not be able to apply for a COE on your behalf.
- If you are admitted to another institution as well as Waseda University and apply for a COE or a visa for both institutions (double application), the COE will not be issued.
- The Immigration Bureau may require you to submit additional documents.
- Depending on the content of documents prepared by the applicants, a COE may not be issued. Waseda University will not be responsible for any disadvantages incurred should the Ambassador/Consul of Japan decides to delay or deny the request for a student visa due to a problem with the submitted documents.
- An applicant who wishes to withdraw from enrolling in Waseda University after receiving a COE must follow the procedure for the withdrawal of enrollment and immediately return the COE to Waseda University.
It is not mandatory to submit the documents below for the screening, but if you are not obtaining the "Student" visa by yourself, do make sure to send the documents at latest by:

**First application period:** October 25, 2018 [JST]
**Second application period:** February 26, 2019 [JST]

The documents and certificates below must be prepared in Japanese or in English. If the bank cannot issue a certificate of deposit balance in English, attach an English translation. If the provider of funds prepared an Agreement for Defraying Expenses in a language other than Japanese or English, attach a Japanese or English translation. Notarization of translation is not required.

Do not use double-sided printing when you print the form.

### Documents for “Certificate of Eligibility (COE)”

(A) Application for a Certificate of Eligibility (COE)
Use the required forms. Of the whole five pages of the Application you are to submit, fill out only the part for the applicant (3 pages). Waseda University will fill out and seal the part relating to the institution (2 pages). Affix one photograph to the application form for a COE (put your name on the back).

(B) Certificate of the deposit balance of a bank account (only certificates issued during the six months prior to the date of application are valid)
If you plan to depend on allowances from a family member or relative, submit a certificate of the deposit balance of a bank account established in the provider’s name. If you plan to pay your school and living expenses on your own, submit a certificate of the deposit balance of a bank account established in your own name.
- **Make sure to submit the original copy.**
- Copies of passbook pages or monthly account statements issued by banks are not acceptable as certificates.
- Certificates of balances of securities accounts of securities companies (stocks, etc.) are not acceptable as certificates of deposit balances.

(C) Agreement for Defraying Expenses
An Agreement for Defraying Expenses signed by the holder of the bank account used in the certificate of deposit balance is required.
- **Use the designated form.**
- If you name a scholarship as a source of funds in the Statement of Financial Resources, submit a scholarship certificate that specifies the scholarship amount and the scholarship period.

### (11) Certificate of residence in Japan
If you have a status of residence in Japan at the time of application, submit copies of either one of the following:
- Certificate of Residence (“Juminhyo”) which shows your nationality, residence status, period of residence, expiration date of your period of residence and your Residence Card number.
- Copies of both sides of your Residence Card

**NOTE:**
- If you have a status of residence in Japan other than “Permanent Resident,” “Spouse or Child of Japanese National”, “Spouse or Child of Permanent Resident”, or “Long Term Resident” change the status of residence to “College Student” on your own after you are accepted by the school, if necessary.
(1) Screening Methods: Document Screening and Interview
(Interview is conducted only for those with a Conditional Offer)

You will be screened in a holistic manner based on your application documents, with priority given to the results of university entrance qualification examinations/standardized tests and score of English language proficiency test in the document screening.

You will receive one of the following three results for document screening:

**Unconditional offer:** You will be admitted to the Faculty of Science and Engineering without any further interview or other test.

**Conditional offer:** You will be invited for an interview, and your admission will be judged according to the result of the interview.

**No offer:** Rejected

The results of the document screening will be sent out to you at your “Mailing Address” specified on the Application Form by Express Mail Service (EMS) or by Simplified Registered Mail. 2) In the event that a cell phone or wristwatch rings, vibrates or otherwise causes a disturbance during the exam, and the exam supervisor can identify the particular device as the source of the disturbance, he/she will remove the device from the exam site, with or without the consent of its owner. The item will be kept at the exam headquarters.

3) While desks, chairs, air conditioning, acoustic equipment, etc., may vary between classrooms used as test sites, this will not be taken as a handicap to any examinee.

4) If, by the actions of a certain examinee, other examinees are disturbed, the examinee causing the problem may be asked to take the exam in a different room.

2. Unforeseen problems that are beyond human control:

In cases of unforeseen circumstances that are beyond human control, such as a natural disaster (e.g., typhoons, earthquakes, flooding, tsunamis) and/or accident, such as fire, power failure, and so on, measures including delaying the start of the exam or postponing of the exam, etc. may be taken. | Second Application Period | May 27 (Mon.), 2019, 12:00 [JST] - June 21 (Fri.), 2019 [JST] |

The enrollment procedure consists of the following two steps.

- If you have been accepted by one of the undergraduate schools at Waseda University and completed the payment of entrance fee, school expenses and other fees to that school and are later accepted by another one which you prefer to enter, you can enter the preferred undergraduate school and request to have the amount you have already paid transferred to that school. However, this procedure can be done only when the enrollment procedure periods of the two schools do not overlap in the same academic year AND the date of enrollment of both schools is exactly same. For more information about the procedure, please refer to the handbook on enrollment procedures sent to successful applicants.

NOTE: Departmental Affiliation and Degree:

When students enroll in the English-based Undergraduate Program in Science and Engineering, Waseda University, each student is automatically affiliated with the School responsible for administering the students' chosen major program. At the end of their third year, each student's departmental affiliation is determined by the School taking into account the student's academic performance and preference. The table below shows the departments which students may be affiliated with according to their chosen major (e.g. students who choose to major in Mathematical Sciences will be affiliated with either the Department of Mathematics or the Department of Applied Mathematics at the beginning of their fourth year).

As shown in the table below, the type of degree (i.e. a Bachelor of Science degree or a Bachelor of Engineering degree) a student will be conferred upon graduation will depend on the student's departmental affiliation.
