

Lecture Course list 2020 Fall

Department	Course Key	Course Title	Credits	Term
Department of Computer Science and Communications Engineering	5101GF1006	Distributed Embedded and Real-Time Processing	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1008	Information Retrieval	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1010	Advanced Intelligent Software	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1014	Multimedia and Standards	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1016	Cloud Systems	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1018	Advanced Wireless Access	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1020	Perceptual Computing	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1023	Digital System Design	2	winter quarter
Department of Computer Science and Communications Engineering	5101GF1026	Special Laboratory B in Computer Science and Communications Engineering	1	fall semester
Department of Computer Science and Communications Engineering	5101GF1029	Analysis of Networked Systems	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1030	System LSI Design and CAD	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1032	Info-Telecommunication and the Standardization	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1034	Algorithms in Computational Biology	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1036	Design and Implementation of Programming Languages	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1037	Autonomous Agent System	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1040	Optimization Theory and Applications	2	fall semester
Department of Computer Science and Communications Engineering	5101GF1041	Cryptographic Protocols and Blockchain Technologies	2	fall semester

“Seminar course by your supervisor” will be also available other than these lecture courses.

Please ask your supervisor if you do not know which seminar you should take.

The seminar course list is also available on the following webpage:

https://www.waseda.jp/fsci/en/students/registration/#anc_12
