

Statement on Missing Subjects

*Reasons why I do not take the designated subjects
for the university entrance qualification examinations and standardized tests*

Name in Full		Date of Birth	Year	Month	Day
Name of Subject that I do not submit the score; Circle one	Physics / Chemistry				
I have the score of biology; Circle one	Yes / No →If “Yes”, indicate the score:				

Statement:

《Examples》 Please note that followings are examples. Please describe your own reason.

- I can choose only one of science subjects due to my high school curriculum.
- Class of physics or chemistry is not provided due to my high school curriculum.
- I choose biology to study the field of life science on the advice of my high school teacher.
- I study physics, chemistry and biology during high school and choose biology for the university entrance qualification examination and standardized test as my favorite subject.
- I take only one of science subjects as universities other than Waseda allow students to apply for admissions with the score of one science subject.
- I choose biology as I can apply for most universities other than Waseda with its score.
