

Average standardized test scores of passing the document screening for 2020

SAT Reasoning	Math II	Physics	Chemistry
1443.4	778.5	753.5	741.3

*This chart shows the average score of successful applicants of the document screening. The Faculty of Science and Engineering does not make public the average score of applicants who pass the final examination.

**The Interview screening for September 2020 enrollment (Second Application) was canceled. The screening was made based on application documents alone.

We encourage students to keep in mind that this statistic only reflects part of our holistic review process, and your performance on the test alone will not determine your admission decision.

The Faculty of Science and Engineering has neither a minimum standardized test score nor a maximum above which admission is guaranteed.

We also care deeply about factors like cultural and linguistic diversity, your interests, goals, and achievements.
