【Important notes for attending online courses】
* If the course is taught online, you need to complete course registration first to attend the course. It would not be possible to attend courses as a trial without registration like face-to-face classes. Please select and register courses based on syllabus and information provided by faculty in charge.
* Faculty of Science and Engineering decided not to allow students to take the overlapping class as same as the AY2020 for the following reasons.
①Initially scheduled online course might be conducted In-Person, depending on current circumstances and based on the student's agreement.
②We will conduct a certain number of online courses in Realtime streaming to enhance the content of the class.
* In order to allow students to participate in online classes as soon as possible, if you register for an online course during the 2nd and 3rd registration periods, those courses will be temporarily registered in Waseda Moodle from the day after each registration period. However, this does not mean that the courses you have applied for are guaranteed to be "registered". Please confirm the registration results of each course on the announcement day.
