

Note on Waseda University transcripts

Waseda University adopted GPA since April 2010 and before that Waseda University does not formally recognize GPA on its transcripts. All faculties submit numerical scores for students on a scale of 0 to 100. Transcripts do not show these numerical scores, which are only available within Waseda University. Instead, transcripts show letter grades. Each numerical score is assigned a letter grade and only grades C or above are shown on the transcripts. Transcripts for students entering the university in April 2005 or before include a table showing A (100-80), B (79-70), C (69-60), and P (100-60 or Completed). Transcripts for students entering in April 2006 or after, on the other hand, include a table showing A+ (100-90), A (89-80), B (79-70), C (69-60), and P (100-60 or Completed).

Waseda University does not formally recognize student's rank in class.
