

Average standardized test scores of passing the document screening for 2022

ACT(Composite)	SAT(※1)			
	SAT Redesigned	SAT subject(※2)		
		Math II	Physics	Chemistry
32.2	1437.8	784.0	755.0	763.1

This chart shows the average score of successful applicants of the document screening. The Faculty of Science and Engineering does not make public the average score of applicants who pass the final examination.

※1 When Applicants for September 2023 enrollment onwards submit SAT results, they need to submit AP results in addition to SAT results.

※2 With the elimination of the SAT Subject Tests in June 2021, we will abolish accepting the SAT Subject from the admission for September 2023 enrollment onwards. For more information about the standardized test, please check the application guideline.

We encourage students to keep in mind that this statistic only reflects part of our holistic review process, and your performance on the test alone will not determine your admission decision.
The Faculty of Science and Engineering has neither a minimum standardized test score nor a maximum above which admission is guaranteed.
We also care deeply about factors like cultural and linguistic diversity, your interests, goals, and achievements.
