(2) On this page, the number of "Required" credits subtracted by the number of "Included" credits equals the number of insufficient credits.

*In the above example, the number of insufficient credits is "0" (136 "Required" credits subtracted by 136 "Included" credits).

*However, if there is a gap between the total number of "Passed" credits and the total number of "Included" credits, please refer to the following website:
