Average standardized test scores of succesful applicants for 2026 September admissions

ACT(Composite)	SAT(※) SAT Redesigned	IB Diploma Program (including predicted grades)
32.6	1499.3	37.7/42

This chart shows the average scores of successful applicants for 2026 September Admissions.

※ Results of the SAT must be submitted along with AP exam scores.

For more information about the standardized test, please check the Application Guide.

We encourage students to keep in mind that this statistic only reflects part of our holistic review process, and your performance on the test alone will not determine your admission.
The Faculty of Science and Engineering has neither a minimum standardized test score nor a certain score that would guarantee your admission.
We also care deeply about factors like cultural and linguistic diversity, your interests, goals, and achievements.
