Summarize your bachelor's thesis or master's thesis especially (1) background and challenge, (2) objectives, goals, and originality, (3) proposed method and your contributed idea, and (4) results and evaluation. If you are not required to write a graduation thesis, you have two choices. Either describe a project research you have taken by detailing (1) to (4) as mentioned above, or describe a technology or subject you have learned which drew your interest: (1b) technology or subject, (2b) reason why you are interested, (3b) how you have handled the subject, and (4b) what knowledge or skill you acquired.

Write from your own perspective logically and concretely. Underline the parts which exhibit your personal competence and the results obtained thanks to you. If you published journal papers or made oral presentations, write the author(s), title, journal in which it was published and date of publication. (There is no word limit, but the statement must be completed within one page of this form. Do not attach any separate sheet. Printing is acceptable.)

☐Bachelor's thesis, master's thesis ☐Project research ☐Learning, is described (Select one and check it.)
