

ERATO

The 6th ERATO Seminar / MANA Seminar / ZAIKEN Seminar

Prof. Junji Kido

“Organic LEDs for Displays and General Lighting”

The sixth ERATO seminar of the Yamauchi Materials Space-Tectonics Project is a lecture by Prof. Junji Kido of Yamagata University, Japan. In the past 30 years, the performance of organic LEDs (OLEDs) has been steadily improved and, today, a variety of OLED display products are in the market. Small-size OLEDs are used for smart phones and tablets, and the large-sizes are used for televisions. White OLEDs are considered to be the general lighting of the next generation. Prof. Kido who is a world-leading researcher in this field will give us a talk on the current status and future prospects of OLEDs. We look forward to your participation.

Date : 10 December 2021
Time : 17:00-18:00(Japan Standard Time)/18:00-19:00(Brisbane Time, Australia)
Venue : Webinar, Zoom (You will know the link after your registration.)
Lecturer : Prof. Junji Kido
Graduate School of Organic Materials Science,
Department of Organic Materials Science, Yamagata University
Title : “Organic LEDs for Displays and General Lighting”
Registration Fee : Free
Language : English
Registration : Please send your information (name, affiliation, e-mail)
to the ERATO-Office (erato_seminar@list.waseda.jp)
Closing Date : 3 December 2021
Contact : ERATO-Office (erato_seminar@list.waseda.jp)

Organized by the JST-ERATO Yamauchi Materials Space-Tectonics Project

Co-organized by

Waseda University Kagami Memorial Research Institute for Materials Science and Technology

Joint Research Center for Environmentally Conscious Technologies in Materials Science

International Center for Materials Nanoarchitectonics (WPI-MANA)

National Institute for Materials Science (NIMS)

School of Advanced Science and Engineering, Waseda University
