

## The 10<sup>th</sup> ERATO Seminar / MANA Seminar / ZAIKEN Seminar

Prof. Dmitri V. Golberg

### **“Advanced Methods of in situ TEM for Nanomaterial Property Analysis”**

The 10th ERATO Seminar of the Yamauchi Materials Space-Tectonics Project is a lecture by Prof. Dmitri V. Golberg at Queensland University of Technology. He will demonstrate the usefulness of the state-of-the-art in situ TEM techniques for uncovering various specific properties of advanced nanomaterials originated from their nano-scale fine structures.

Date : 13 May 2022

Time : 17:00-18:00(Japan Standard Time)  
18:00-19:00(Brisbane Time, Australia)

Venue : Webinar, Zoom (We will inform you the webinar URL after your registration.)

Lecturer : Prof. Dmitri V. Golberg  
Professor and co-director, Centre for Materials Science and School of Chemistry and Physics,  
Queensland University of Technology, Australia

Title : “Advanced Methods of in situ TEM for Nanomaterial Property Analysis”

Registration Fee : Free

Language : English

Registration : Please send your information (name, affiliation, Status (Student, Researcher, etc.)  
E-mail address ) to the ERATO-Office.  
erato\_seminar\*list.waseda.jp (Please replace \* with @)

Closing Date : 9 May 2022

Contact : ERATO-Office (erato\_seminar\*list.waseda.jp) Please replace \* with @.

Organized by the JST-ERATO Yamauchi Materials Space-Tectonics Project

Co-organized by

Waseda University Kagami Memorial Research Institute for Materials Science and Technology

Joint Research Center for Environmentally Conscious Technologies in Materials Science

International Center for Materials Nanoarchitectonics (WPI-MANA)

National Institute for Materials Science (NIMS)

School of Advanced Science and Engineering, Waseda University
