

The 15th ERATO Seminar / MANA Seminar / ZAIKEN Seminar

Prof. Dr. Wataru Sugimoto

“Nanosheets for Electrocatalysis”

The 15th ERATO seminar of the Yamauchi Materials Space-Tectonics Project is a lecture by Prof. Wataru Sugimoto of Shinshu University who has been researching nanosheet materials that exhibit excellent conductivity and electrochemical stability. In this lecture, various synthetic methods and electrocatalytic performances of nanosheets of precious metals and their oxides will be presented. We look forward to your participation.

Date: November 25th, 2022
Time: 17:00-18:00 (Japan Standard Time)
Venue: Hybrid (On-site at Waseda University + Zoom)
If you wish to attend on-site, please contact ERATO office.
Lecturer: Prof. Dr. Wataru Sugimoto
Distinguished Professor, Deputy Director, Shinshu University,
Academic Assembly School of Science and Technology,
Institute of Textile Science and Technology, Research Initiative
for Supra-Materials, Interdisciplinary Cluster for Cutting Edge Research
Title : “Nanosheets for Electrocatalysis”
Language: English
Registration Fee: Free
Registration: Please send your name, affiliation, status (student or researcher, etc.), and
E-mail address to the ERATO-Office.
