

## Part of the Questionnaire

### Closed-ended questions

Please choose the answer that best describes each statement regarding this year's FD program.(A scale from 1 disagree to 4 agree)

#### Learning: Increase in the knowledge or skills of the participants

- 1) I understood the influence of students' prior knowledge on their learning.
- 2) I understood the influence of the method of knowledge systematization on learning.
- 3) I understood how to enhance student motivation.
- 4) I understood that there are levels to students' mastery.
- 5) I understood that it is necessary to provide students with clear learning objectives to have them engage in effective practice.
- 6) I understood how to give feedback (summative and formative) that promotes student learning.
- 7) I understood that there are intellectual, social, and emotional aspects to students' development.
- 8) I understood how to create a class environment that promotes student learning.
- 9) I learned how to promote self-directed learning.
- 10) I learned how to design lesson plans based on backward design.
- 11) I understood techniques for evaluating students' comprehension levels.
- 12) I understood the purpose of "student centered learning "
- 13) I learned how to write course aims and objectives.
- 14) I learned about one or more active learning techniques.
- 15) I learned about active learning techniques and tools that I could use in my classes.
- 16) I discovered clues for how to improve my classes through microteaching.

#### Aim: Program's intended goal

- 17) My desire to implement active learning increased.
- 18) I learned effective teaching methods.
- 19) My desire to implement English-taught classes increased.
- 20) I gained confidence about implementing English-taught courses.
- 21) Matching with host was appropriate.
- 22) I gained opportunities for international propagation of, and new insights for, research.
- 23) During the program, I connected with faculty from different age groups, tenure, fields of research, and departments.

Developing a Global Faculty Development Program:

Focusing on Assessment

Yan Jiang & Yusuke Morita,

Waseda University, Japan

### **Reactions: Satisfaction of the participants**

24) I think the content of this program will be useful in future improvements of courses.

25) Overall, I found the content satisfactory.

### **Open-ended questions**

#### **Change in teaching philosophy**

Did your teaching philosophy (Your way of thinking about education) change after participating in this year's FD program?

#### **Gains from the program**

What did you like about participating in this year's FD program? (What left a strong impression/What you learned/What stimulated you etc.)

#### **Comments for the program improvement**

Please describe 2 or more issues that need improvement in content and management that you think would help to make the program better (If possible, please also provide a potential solution).
