

Center for International Education
Waseda University

Partner Universities' Programs

Programs requiring nomination by Waseda University

For the following programs, you are required to be nominated by Waseda University before you apply to the partner universities. First, submit designated documents (specified Waseda University application form, written oath, etc.) to the Center for International Education of Waseda University by the internal deadline. You cannot apply past the deadline, or apply directly to the partner universities.

After you are chosen to participate in a program, apply for the designated international mobile phone and travel insurance by following guidance from the Center for International Education (mandatory).

You cannot cancel your participation once you are nominated. If there is an unavoidable circumstance that will not allow your participation, consult with Center for International Education and the university hosting the theme study program. Please take note that you may be required to pay a cancellation fee even if you are allowed to cancel.

※If you are expected to graduate from Waseda within a year and your planned program at a partner university continues over 15 March or 15 September onwards, you cannot apply for the program because you will not be a Waseda student after your graduation from Waseda.

【Nomination by Waseda University】 Programs
