Global Jinzai Program - online

15 August – 2 September 2022

Waseda University, Japan

The University of Adelaide

Established in 1874, the University of Adelaide is Australia's third oldest university.

With an international reputation for conducting world-leading research across a wide range of areas, the University is consistently ranked in the top 1% in the world (including a ranking of 106 in the QS World University Rankings 2020), is associated with five Nobel Prize winners, and has produced 110 Rhodes Scholars and 104 Fulbright Scholars. The University is a member of the Group of Eight – Australia's eight leading research-intensive universities.

The University of Adelaide's mission is to have internationally-focused staff and tolerant, progressive students prepared for global citizenship in an increasingly borderless world. It is a university true to its historical roots, yet passionately committed to producing graduates who can play leading roles in the Asian Century.

With more than 26,000 students and over 3,500 staff, the University is small enough to provide personal interaction with teaching staff, yet large enough to offer a broad range of programs and student support services.

For more information on the University of Adelaide visit www.adelaide.edu.au

The English Language Centre (ELC)

The ELC has been delivering custom designed education programs for institutional partners for over 25 years and has a reputation for producing some of the highest quality English language programs available in Australia. The quality of our teaching and the well-being of our students is our paramount concern, and we are fortunate to have some highly experienced and talented teachers in our centre.

Our highly experienced teachers will support students to develop practical, real life English communication skills, using a range of scaffolding techniques, language learning strategies, practice opportunities and targeted feedback. Students will learn about topics concerning Australian culture and Global Communication skills that will prepare them for the first-hand experience of participating in a study tour program in Adelaide.

You can be assured of a professional service and an academically rigorous program, combined with world-class support services for your participants.

Program overview

This three-week program combines language development with authentic interactions with members of the local community, including University of Adelaide students. This program has been specifically designed to introduce and replicate the experiences that students studying overseas gain whilst onshore in Australia. Through live-streamed activities, students will have the opportunity to experience the city and people of Adelaide in an online environment.

Experiences include:

- Social interactions with Adelaide domestic and international students
- Project teamwork involving Adelaide students
- Live-streamed tours and interactions with members of the community
- A look inside the home of an Australian family and an in-depth exploration of local customs.

Objectives of this program include:

- Development of language abilities, especially in Speaking and Listening
- Increased communication confidence
- Greater understanding of cross-cultural communication
- Expanded high level communication skills including negotiation and presentation.

Delivery Model

This online program has been designed for groups who may not be able to physically come to Adelaide due to current travel restrictions. Participants have the opportunity to remain engaged with the world and gain experience in online delivery modes of learning.

Participants will use an online platform called Zoom, where they will participate in 'real-time', virtual classes, interacting and completing activities with other classmates, all the while guided by our expertly trained and qualified TESOL trainers.

Enrolled participants will also get access to university information technology and digital services. MyUni is the University of Adelaide's learning management system, on which participants will find course contents, communicate with teachers and peers, and receive grades and feedback.
