**Deadline: July 15th Friday**

For questions, contact us: [info@beyond-tomorrow.org](mailto:info@beyond-tomorrow.org) or 03-5453-8030

## About BEYOND Tomorrow

With the belief that **"Enduring Adversity Makes Great Leaders"**, **BEYOND Tomorrow** supports young talents facing various socioeconomic challenges such as death of parent, abuse, or poverty. Support for them includes financial aid, leadership programs, and research studies. We encourage our students to transform their difficult experiences into abilities to forge forward and participate in society.

### Educational Scholarships

We select young students with aspirations and qualities to contribute to society despite their difficult experiences. We offer non-refundable educational scholarships to high school students and high school graduates attending universities, junior colleges, or vocational schools.

### Leadership Programs

We offer leadership programs both inside and outside Japan. Regional programs include fieldwork opportunities that address social issues within Japan. Overseas programs provide participants opportunities to travel the world, learn about global issues, and connect with people from overseas.

### Summer Camp in TOKYO 2022

During a 4-day summer program from August 11th to 14th, about ten university students as our scholarship grantees will participate in the program and experience various activities to expose themselves to the world through visiting places that are related to foreign cultures and exchanging with foreign people who live in Japan. What does it take for people of various nationalities and circumstances to create a diverse and harmonized society in Japan? Let's discuss with us!!
