[DISCOVER Program Description February 2026](#)

## Program Details:

**DISCOVER** is a unique, experiential, integrated skills language program. This program is theme-based and provides opportunities for students to engage in dynamic classroom activities around high-interest global topics. While the focus of the morning classes is on acquiring new language, the afternoon projects classes give students the opportunity to apply what they've learned not only in the classroom, but also on the UBC campus and out in the Vancouver community.

DISCOVER uses an intensive project-based approach to learning and provides students with the language skills and confidence to get out of the classroom and communicate confidently in real-life situations. The ELI Placement Test is used to place students in the appropriate level before the program begins.

The DISCOVER Program is for you if you want to:

- Expand your general English vocabulary and develop your reading and writing skills together with your speaking and listening skills in the context of globally relevant topics.
- Work on seminars and projects that develop your critical thinking skills and ability to work collaboratively with people from around the world.
- Experience life on the UBC campus and in the Vancouver community and use the English you learn to communicate with the people around you.
- Know your Level: Our courses range from A2 to B2+; students are placed in their courses following online in-house testing.

Upon completion of each 8-week program you will receive a certificate and transcript.

※プレイスメントテストにより各レベルに振り分けられますが、時期ごとの参加者の人数や語学レベルにより、一部レベルのクラスが開講されない可能性があることをご了承ください。

※語学レベル等の条件により、同期間に開講される English for Academic Purposes (EAP)コースに振り分けられる場合があります。クラスレベルや参加コースは留学先大学によって判断されます。

## Housing and Meal Plan:

Homestay is available for DISCOVER students.

本プログラムに参加される場合、滞在先は必ずホームステイになります。募集要項の付録④「ホームステイに関する注意事項」を必ずご確認ください。

\*Waseda students are more likely to live with Japanese students in the same homestay.
