General English Course

General English will help students improve their ability to communicate in English in social and work situations. The course focuses on the development of communication skills with a balance of speaking, listening, reading and writing tasks. Students will be integrated according to their English level (Elementary, Pre-Intermediate, Intermediate, Upper Intermediate or Advanced) and will learn through class activities, individual, pair, and group work with other students from a range of backgrounds and nationalities.

General English includes elective classes, which allow students to tailor their course to meet their learning goals, as they can choose a class to focus on a particular subject or skills. Students at Intermediate level and above choose their elective classes upon arrival at the ELA for General English course. Please note that the elective classes are dependent on the level and student demand.

The elective classes include:

- The English for IELTS elective focuses on language development, with competence in the four key IELTS test areas (writing, speaking, listening, and reading) developed during the course. This elective also builds awareness of the IELTS test format and provides practical exam skills and strategies.
- The Business English elective teaches a range of business communication skills, with a focus on practical language. Every few weeks the Business English class will take part in a project involving real-life business skills such as advertising, marketing, presenting, selling a product and writing a report.
- The Communication Skills elective focuses on developing functional listening, speaking and writing skills, covering the themes 'Social and Travel' and 'Work and Study'. There are often projects connected to the themes and language from the course books.

- Class type: Integrated
- Course length: 11 weeks
- Class hours: 20 hours per week (4 hours every day from Monday to Friday except public holidays)
- Entry Requirements: Elementary (CEFR level A1, IELTS 3.5 or TOEFL iBT 20)

Academic English Course

This 10-week intensive Academic English course will help students improve students' English language skills to prepare for study success at university. This course provides students with opportunities to develop independent learning strategies and address individual needs in listening, speaking, reading and writing. Students develop the language and academic skills to help them progress to the next level of English, move to one of our pathway programmes, or transition to destination programmes. The participants may be tested to ensure that they are placed at the correct level of study prior to beginning the course in Auckland.

If you wish to improve your IELTS band scores, you may choose:

- Academic English (session 1) + IELTS (session 2)
- Take an IELTS test upon completion of the course at ELA's official IELTS Test Centre.

If you wish to improve your English for future tertiary studies in English Speaking Country, you may choose:

- Academic English (session 1) + university preparation skills (session 2)

Homestay

ELA Homestay

Homestay accommodation is a great way to learn about Aotearoa New Zealand culture and to practise your English in a friendly and relaxed environment when the students are enrolled in ELA. Families are selected on the basis of providing such support and are experienced in caring for students from many different cultures. In a homestay you live with a family, have your own room, and 2 meals (Breakfast & Dinner) on weekdays and 3 meals on weekends are provided. Most homestays are within 70 minutes from the ELA by public transport (Bus fare \$4-7 per way).

The main criteria for homestay placements include:

- The family is English-speaking.
- The family is able to provide a well-furnished single room for the student.
- Dietary requirements of the student are taken into account.

NOTE:

Some of our families host more than one international student, including those from your country who may be from the same group. This allows the students the chance to share their home with another student, while ensuring each student has their own private room.

Living Cost

Generally you should allow approximately NZ\$700 - \$1,000 per week for living costs, including accommodation, food and transport.

Homestay	
Homestay accommodation	NZ\$413
Food	NZ\$100
Transport (2-3 zones)	NZ\$50
Entertainment	NZ\$200

Note: Costs are listed in New Zealand Dollars (NZD) and are approximate fares for 2026. Please be aware that transport fares are subject to change, depending on changes in circumstances or transport policies.

Student Story & Further information

Student Story

Airi Akiyama
Waseda University
Student

Airi, a motivated student from Waseda University in Japan, joined ELA to prepare for her future academic studies — and left with not only improved English skills but also unforgettable memories and international friendships.

She began her ELA experience in the General English course, where she built up her confidence in everyday communication through interactive lessons and fun activities. Later, she progressed to the Academic English course, designed specifically for university study, so students will focus on academic reading, writing, presentation and listening to lectures.

Outside the classroom, Airi fully embraced the ELA student life — participating in hikes, campus tours, and events like Meet2Chat, where she practiced English in a relaxed, social setting with local university student volunteers.

“Though you might encounter several challenges as you study abroad, I’m sure you can get over them with great support from this school. I hope you make amazing memories here at ELA.”

Student Visa

Students enrolling in this programme must enter New Zealand with a valid visa that covers the entire duration of their studies. For detailed information, please visit the Immigration New Zealand website: www.immigration.govt.nz.
