11. European Horizons is a global, student-led policy incubator whose mission is to give young people a voice in shaping the future of Europe and of transatlantic relations. Through our network of university chapters across the world, and in collaboration with our partner organizations, European Horizons devises, tests, and advocates for innovative policy ideas to advance European integration.

In particular, European Horizons' members and chapters:

- undertake collaboratively-designed projects with partners in European politics and policy-making, business, society, and culture;

- conduct independent research through the Review of European and Transatlantic Affairs and other publications; and
- hold international and regional events, such as the annual European Student Conference at Yale or the Youth Summit on the Transatlantic Digital Economy, that connect students to each other and to our partner organizations, and thereby empower them to shape the future of Europe and transatlantic relations.

Events:

EH Book Club
