

**For students entering graduate school in April  
(Regarding the validity period of the registration)**

**When performing a new registration or renewal of registration for a training center, the period of validity is until the undergraduate graduation ceremony (until the time of returning the student ID card).**

**※The period is not one year from the date of new registration or registration renewal.**

**Please register again when you receive your new graduate student ID card in April.**

**※Health Checkup Report, 1 photo (4cm x 3cm), student ID card, and fee payment certificate (4,500 yen) are required.**

**When a student moves from an undergraduate student to a graduate student, his/her student ID and student ID number change, and therefore, his/her registration information at the Training Center cannot be transferred.**

**Thank you for your understanding and cooperation.**
