

Research Debriefing Session

by WIAS Third-year Researchers
held via Zoom

July 18th (Fri), 2025

Natural Sciences 自然科学分野 10:30-12:00

Theoretical research on transport phenomena of spin and orbital angular momentum in composite atomic layer materials / OMINATO Yuya
複合原子層物質におけるスピン・軌道角運動量の輸送現象に関する理論的研究 大湊 友也

Large-scale structure and galaxy formation in big data astronomy
/ SHIMAKAWA Rhythm
天文ビッグデータと数理統計解析で明かす宇宙大規模構造と銀河形成 嶋川 里澄

Genetic dissection of brain networks/ HOSHINA Naosuke
脳内ネットワークの遺伝学的解剖 星名 直祐

Social Sciences 社会科学分野 14:00-15:00

Estimation of the production function with a structural estimation approach and its application to environmental policy evaluation
/ ABE Tatsuya
構造推定アプローチによる生産関数の推定と環境政策評価への応用 阿部 達也

INFOTRUST: understanding the dynamics of information exposure and processing to attitude-disconfirming political information across high and low media-trust national contexts / LIU Ling

Humanities 人文科学分野 15:30-17:30

The Discourses on Tenkō (ideological conversion) and Its Cultural Representations in Postwar Japan / LEE Juhee
戦後日本の転向言説とその文化表象 李 珠姫

Japanese sangaku and Euclidean geometry: A history of tangents or parallel lines? / KARAI SL Antonia

Debatable or Not?: Process, Quality, and Action in Medieval Indian Argumentation Theory / SUDO Ryushin
中世インド議論学における議論構築の方法論の解明と対話可能性の検討 須藤 龍真

Optimizing unconscious signals through attentional control
/ HUNG Shao-Min
