1.1 What is authenticity verification?

Screen Images	Steps	How to Operate

Digital watermarks are embedded in certificates issued at convenience stores. The person who receives the certificate (such as a company) can check the authenticity of the certificate.

As an authenticity confirmation procedure, access the POPITA web application (see note), hold it over the received certificate, and the screen will automatically access the confirmation site. You can confirm the authenticity of the certificate by entering the necessary information on the confirmation site that has transitioned.

Authenticity: The ability to verify that the university has issued a certificate to the individual.

(Note) To use "POPITA" from a smartphone, please follow the steps below.
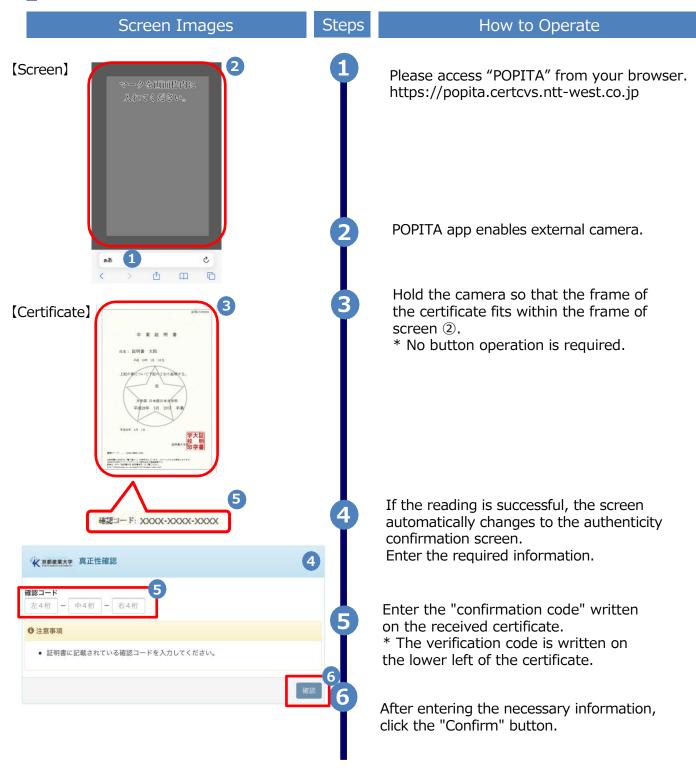

Access the following URL from your browser.

https://popita.certcvs.ntt-west.co.jp

Please Allow the camera settings on your smartphone's browser.

*The screen images shown below are samples only. For actual operation, follow the on-screen instructions.

1.2   How to use POPITA

Screen Images	Steps	How to Operate
