

Make your students become information literate with the Library Literacy Services!!

Waseda University Library has been contributing to improve students' information literacy by holding several workshops & courses (ex. explaining the usage of the library facilities, how to find materials, how to use databases, etc) and providing self-taught materials (ex. guides for finding materials, movie contents, etc).

By making full use of those contents, your students will be able to get the most benefit of the materials which Waseda University Library provides, and surely become information literate !!

Why don't you introduce the library literacy in your classes?

As an introductory education • • •

Before assigning essays to students • • •

When students start to write graduation theses • • •

1.Literacy Course in Classes

You can introduce some integrated courses on learning how to search materials and the usage of the useful tools and databases in your classes. Contents of the courses can be customized upon your request.

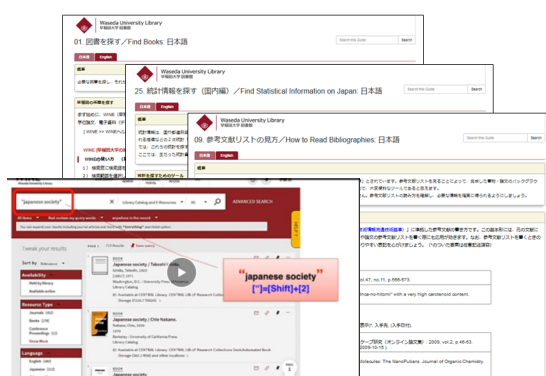

Generally, we ask you to prepare the PC rooms to hold the course, but the consultations are available for the holding date / place.

In addition, video contents useful for study and research are also provided in the "Contents provided by the library" section of Waseda Moodle. Please use them as class assignments.

【Deadline of the application】

Standard deadline for the application would be 1 months before the preferred holding date.

2.Self-taught materials

We provide self-taught materials for students to make the full use of the materials in the library.

ex. Library self-guided tour, a series of guides for finding materials (on material type, on each subject)

They are intended to be introduced in the classes or used as a supplement for the assignments.

Please get the most benefit of these materials.

Consultations and inquiries about the usage in the classes are welcome.

3.Library

We support student by preparing various workshops which meet each students' achievement level; such as from basic workshop (ex. finding books, how to read reference, etc) to advanced / proficient workshop (ex. finding legal information, using citation management tools, etc).

These workshops would be useful as students' supplementary lessons and also they can be set as a required session for the students, for we provide the certificate of the attendance.

*The detail and the holding date of the Library Workshop will be announced in the Library HP, etc.

【How to inquire /apply】 Department of Users Support, Waseda University Library.
