How to Use Wireless LAN (iOS)

Notice
- Alumni (graduates) will not be able to connect to the intra-university networks.
- Network connections are restricted to some ports for security reasons. So you may not use some apps including Mail.
- You can use this manual, but we don't guarantee the devices.
- Your ID and password are saved in iPad. You have to delete the network settings after you use if you share iOS with others.

Ⅰ. Network Settings

1

Open Settings on Desktop.

2

(1) Select Wi-Fi.
(2) Turn Wi-Fi on.
(3) Click blue arrow button of waseda or waseda-wpa2.

*The figure is an example of waseda-wpa2.

3

(1) Select DHCP.
(2) Select Off on HTTP Proxy.

Ⅰ. Network Settings

4

Return to Wi-Fi Networks and click waseda or waseda-wpa2.

*The figure is an example of waseda-wpa2.

5

Enter your Waseda Mail address and password, then click Join.

6

First time Certificate window opens and click Accept.

You can check the Wi-Fi location on IT service NAVI site.
https://www.waseda.jp/navi/e/network/wireless_new.html

Ⅰ. Network Settings

7

(1) Confirm waseda or waseda-wpa2 is checked.
(2) Click blue arrow button if you check your IP.

Wi-Fi	ON
Choose a Network...
