The Comprehensive History of "*Yama Kikan*"

Hiroshi KIMURA

In this thesis, we refer to the history of the counter intelligence agency (YAMA) under the direct control of the Minister of the Army.

YAMA has expanded its influence on the basis of telephone wiretapping in Tokyo, and several government agencies had cooperation and beneficial relationships.

After Tojo Hideki was appointed Minister of the Army, YAMA will start monitoring the domestic anti-Tojo power.

The successor Army Minister banned the political intervention of the military police force, but the departure activity of YAMA did not stop.
