

**2018 GLOBAL FORUM FOR FINANCIAL CONSUMERS**  
**The Fourth Industrial Revolution and Financial Consumer Protection**

Date : July 27 - July 28, 2018

Venue : International Conference Center, Waseda University, Tokyo

Host : IAFICO (<https://www.iafico.org/>)

School of Commerce of Waseda University

Research Institute of Business Administration of Waseda University

Insurance and Risk Management Institute of Waseda University

Organizer: SKK University (Center for Insurance & Pension Research)

In recent years, there has been a major reform of the industry due to the fourth industrial revolution which is technological innovation represented by IOT (Internet of Things) and AI (Artificial Intelligence). On the other hand, these changes have promoted the development of financial technology called Fintech or InsurTech, and have caused a huge impact on the financial industry. For example, the virtual currency has no border and regulatory agencies, and complex financial products have exceeded the boundary of banks, insurance and securities.

The rapid development of such FinTech and InsurTech makes it difficult to protect financial consumers through the existing supervisory system, and the protection of financial consumers in each country has not been keeping up with the progress of FinTech or InsurTech. In order to respond to the necessity of protecting financial consumers, the International Academy of Financial Consumers (IAFICO) was formed as an international organization and attracted attention from the world's regulatory agencies and the mass communication.

This International Academic Conference aims at gathering experts and academics from different countries focusing on themes related to a fourth industrial revolution and protection of financial consumers and exchanging opinions and research outcomes. Sharing the outcomes of this academic event with the financial supervisors of each country in the financial industry and scholars is significant for protecting financial consumers.

近年、IOT(モノのインターネット)とAI(人工知能)に代表される技術革新による第4次産業革命による産業の大変革が起きている。一方、これらの変化は、フィンテック(Fintech)とインシュアテック(InsurTech)と呼ばれる金融技術の発展を促進し、金融業界に大きな影響を及ぼしている。例えば、仮想通貨は国境と監督機関を持たないものとなり、また、銀行・保険・証券という垣根を超える複合的金融商品が発売されている。

このようなフィンテックとインシュアテックの急速な発展は、既存の監督体制による金融消費者保護を困難にしており、各国の金融消費者保護はフィンテックやインシュアテックの進展に追いついていない状況にある。このような金融消費者保護の必要性にも対応するため、国際金融消費者学会(IAFICO)が国際的な組織として結成され、世界の監督機関やマスコミからも注目を集めてきた。

本国際学術大会は、このような第4次産業革命と金融消費者保護をテーマに、各国の専門家と学者が集まり、意見と研究成果を交換することを目的としている。この学術大会の成果を各国の金融監督者と金融業界、学者が共有することは、金融消費者保護のために持つ意義は大きい。
